Qualifications & Memberships

- Member, CA ANZ
- Bachelor of Economics, Australian National University
- Bachelor of Commerce (Accounting and Finance), Australian National University
- Security Clearance: Negative Vetting 1

Deb has more than 17 years of experience providing advisory services to the Australian Government and private sector clients. She specialises in a broad range of services including internal audit, probity, financial viability analysis, financial modelling assignments and compliance matters.

Deb is highly skilled at conducting a wide range of internal, external, probity, governance and risk management audits. Through her work for the public sector, Deb has also acquired extensive knowledge and experience in the Commonwealth Financial Management Framework, grant and funding agreements, contract management and procurement.

Deb has conducted financial viability assessments and financial due diligence assignments to ensure compliance with accounting standards and also has experience with the development of financial models and procedure manuals for use of those models.

Engagement Experience

- Various Australian Government agencies: Delivered internal audit programs of work for the National Health and Medical Research Council; Department of Infrastructure, Regional Development and Cities; Department of Health; and Department of Human Services.
- Various Australian Government agencies: Appointed as Probity Advisor for a range of complex procurements including the procurement of vaccines; procurement of publication systems and data collection services for the Pharmaceutical Benefits Scheme; and procurement of ICT services for the Australian National Audit Office.
- Various Australian Government agencies: Delivered financial viability assessments for a range of clients including the Department of Health (aged care); Department of Education (long day care, vocational education and training providers); and Department of Infrastructure, Regional Development and Cities (grant applicants).
- Australian Securities and Investments Commission: Over a period of four years, led compliance reviews of advice provided by financial advisers to consumers on a range of financial products.
- Icon Water: Led a cost accounting review which included the delivery of a revised cost allocation methodology and associated financial model.
- Department of Education: Led compliance and forensic audits of vocational education and training providers and private schools to determine compliance with legislative requirements and student engagement.
- AirServices Australia: Led a rolling program of work to undertake compliance reviews of procurement and contract management practises.
