### Qualifications & Memberships

- Member, CA ANZ
- Joint Insolvency Examination Board (UK)
- Bachelor of Commerce, Monash University
- Committee member, Women in Insolvency Network (NSW)

Suzanne has more than 14 years experience working with corporates and stakeholders on improving operational and financial performance. She specialises in cash and working capital, independent business reviews, turnaround and rapid performance improvement.

She has extensive global experience helping clients to implement strategies to improve financial metrics, particularly around cash and working capital, and works closely with all stakeholders to implement fast and sustainable solutions.

Suzanne works with and for a diverse range of stakeholders, including Australian and international financiers, private equity and government agencies, with specific experience in the construction and engineering, healthcare and transport sectors.

Her recent experience includes delivering working capital improvements for a global, privately owned engineering company and managing a cash improvement programme at a UK based FTSE 250 company.

### Engagement Experience

- Implementation of a working capital improvement program for a privately owned, global consulting, engineering and project delivery group which resulted in an eight-day improvement in Global DSO metric, which equated to a c. \$8.8m cash improvement.
- Rapid assessment of a complex, listed construction group's short term cash flow forecast
- Independent Business Review of a high growth PE owned renewables company
- Central finance function role in the Voluntary Administration of RCR Tomlinson Limited which included creating and updating the trading cash flow, agreeing the basis for intercompany recharges and implementation, bank reporting, and overseeing treasury for the over c. 90k transactions recorded in the VA period.
- Led the rapid cash improvement program at a FTSE 250 International Construction company, which saw an improvement in yearend cash of over £250m.
- Engagement lead for a rapid turnaround of a large, complex London NHS Hospital including preparing a detailed Financial Recovery Plan for the regulator within tight timescales whilst actively identifying and implementing EBITDA and cash improvements
